# User Manual

## Overview

The chat system is designed with the goal of bringing a comprehensive and lightweight chatting experience to users, by removing unnecessary features that bloat and, sometimes, damage the experience and the user's essential privacy.

## Program Functions:

**Creating An Account** **2**

**Log In** **3**

**Create A Chat** **4**

**Add User To An Already Existing Chat** **8**

**Leave chat** **9**

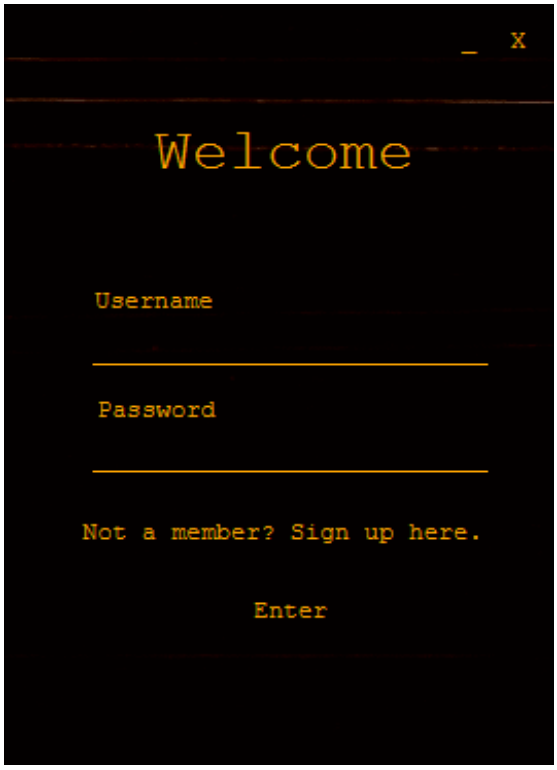
**Edit Profile Information** **10**

## Restrictions:

Customise chat.
Change chat name.
Download chat into a file.
Send media.

# Creating An Account

Upon opening the program you will be greeted by the login screen.



**(Note: if you already have an account jump to the “Log In” section)**

1. Click on “Not a member? Sign up here.” Which will open the signup screen.

2. Start by choosing a unique username,
also, your Identity by which other users
will be able to recognize you. Keep in mind
That it is case-sensitive.

3. Input your first and last name.

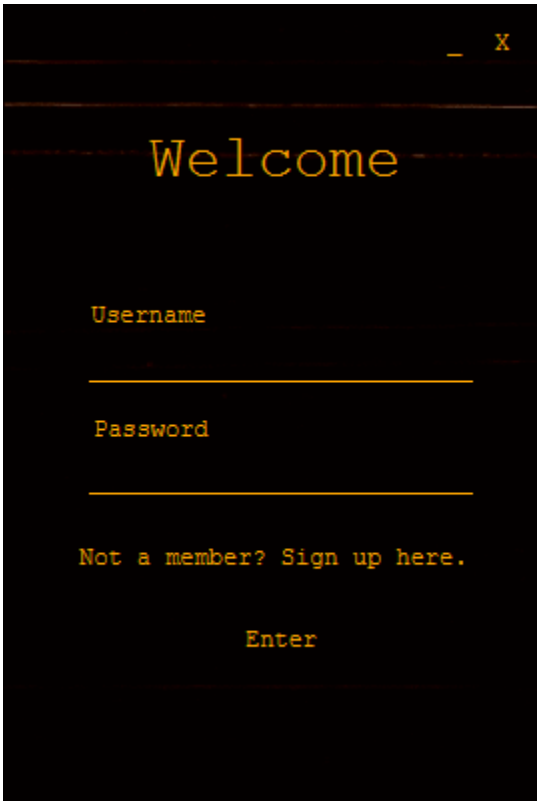
4. Chose password, preferably one
which you haven’t used anywhere else.

**(Note:**
**Make sure to remember your username and password, they are your login credentials.)**

# Log In

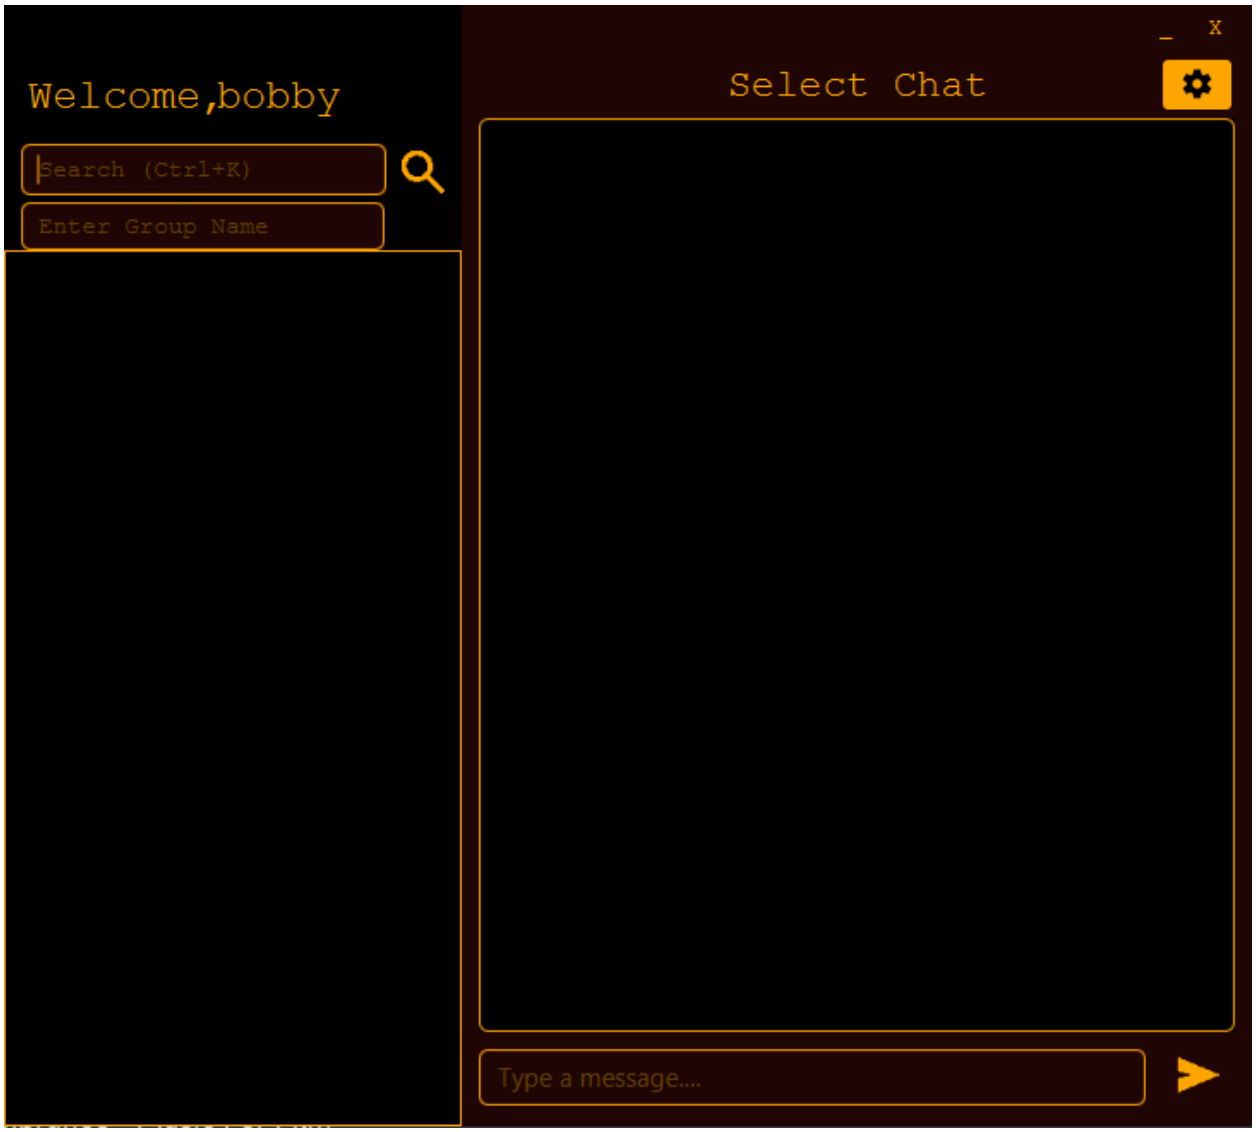
After you have successfully created your profile. You are now a few steps away from using the system.

1. Start by typing in your username.
2. Input your password.
3. Select ‘Enter’



## Create A Chat

After a successful login, you will be redirected to the main chat v



You are now a few steps away from chatting with other users. Let’s start by creating a one-to-one chat.

1. Start by selecting the search field.

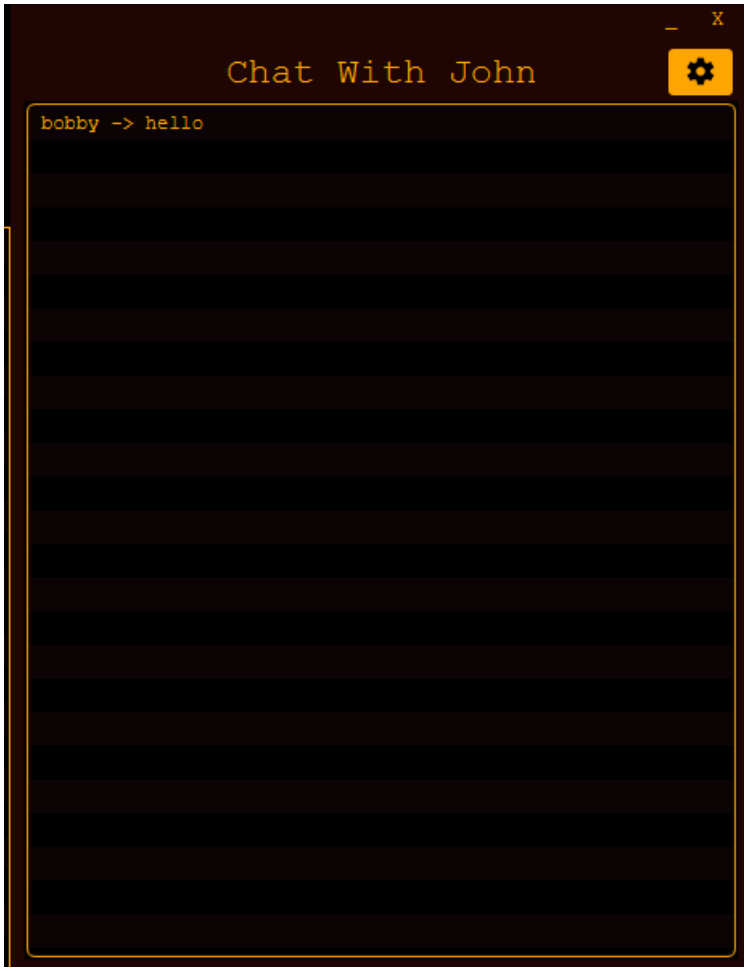
2. Upon doing that a second text field ‘Enter group Name’ will appear underneath it.

3. In the first field input the username of the user you wish to connect to, and underneath it the Name of your chatroom.

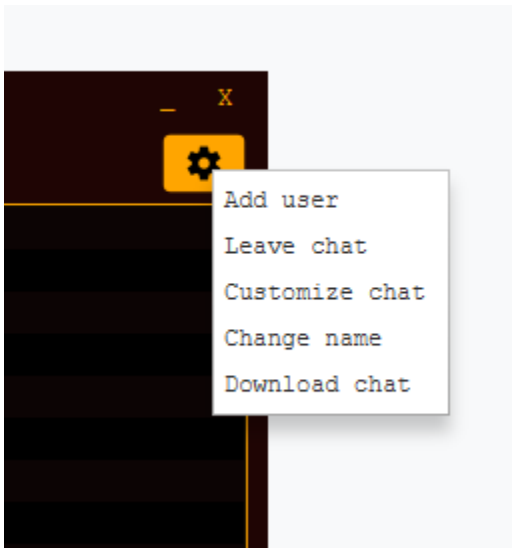
4. After that click on the button to the left, and if everything is correct your chat will be corrected. We encourage you to double-check the information you input, before proceeding. Your chat will appear on the left in the chat catalog.

## Add User To An Already Existing Chat

1. Start by selecting the chat in which you need to add new people from the chat catalog.



2. Right Click on the setting button on the top-right and select ‘Add user’

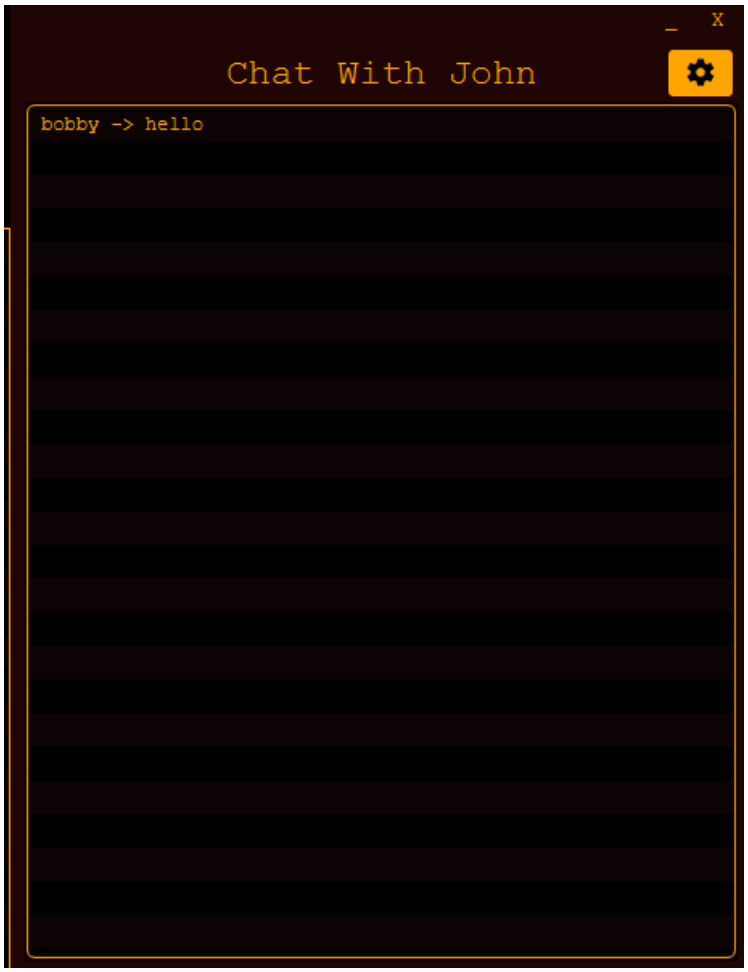


3. Input the username of the user you wish to add and select ‘Add’. Congratulations you now have a group chat.

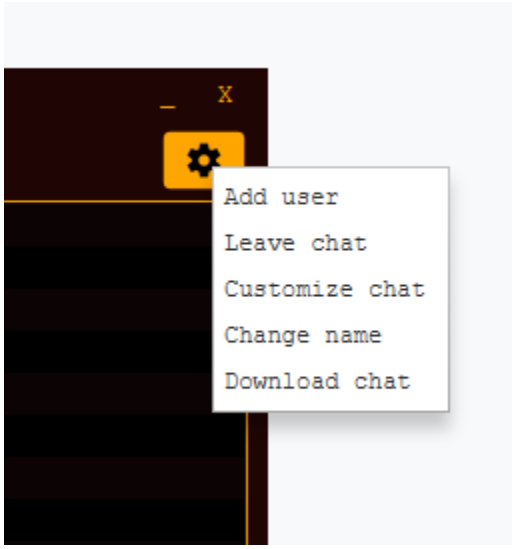
.

## Leave chat

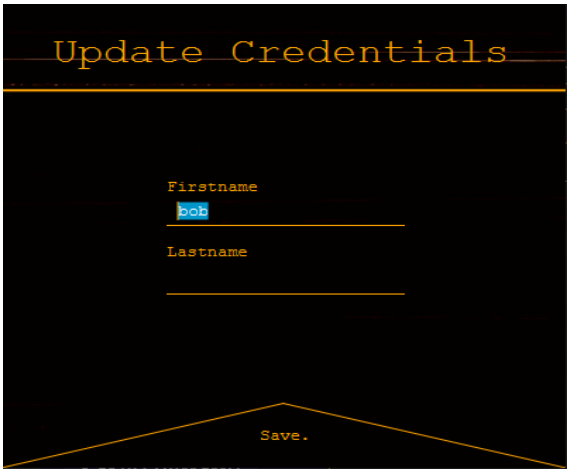
1. Start by selecting the chat you want to leave.



2. Select the option “Leave Chat”.



# Edit Profile Information

1. Right-click on your username on the main chat page and select “Update Profile”


2. Input your new desired data and select ‘Save’
